REPORTS OF STANDING COMMITTEES.

The Committee on Elections presented the following report, which was read, received, ordered to be entered in full in the minutes and placed on file.

Jersey City, N. J.,
Nov. 26, 1895.

To the Honorable Board of Aldermen:

Gentlemen—Your Committe on Elections beg leave to submit the following report: The total expense for registry and election, Nov. 5, 1895, is $13,466.12, of which the County is to pay $10,682.85, leaving the net cost, $2,783.27.

This is a reduction of $6,827 in the cost to the City of fall elections, the causes for which are: First—The amendments to the election law passed by the legislature of 1895, reducing the number of election officers. Second—The omission of expensive newspaper advertisments, which makes an annual saving of $3,500, and, Third—The reduced cost of stationery and supplies brought about by submitting the same to competition and awarding contracts to lowest bidders.

The present election law, with some modifications, has been in operation since the summer of 1890, and from that time up to and including the spring election of 1893, the majority of this Board was democratic, the three fall and two spring elections occurring between October, 1890, and December, 1892, cost $88,154.50, of which the County paid $16,815.50, and the city has a claim against the County still in dispute for $7,108.25, which, if paid, will leave the net cost to the City $64,230.75.

The political complexion of the Board changed in the spring of 1893, and the three fall and two spring elections occurring since then, under the present administration, have cost $84,877.75, of which the County has assumed $30,476.10, leaving the net cost to the City $54,401.65, a net saving to the City of $9,829.10 in the cost of elections during the last two and one-half years over those for the corresponding period immediately preceding the same.

Respectfully submitted,

J. MITCHELL,
A. L. WILSON,
Committee on Elections.

OFFICERS' COMMUNICATIONS.

The following communication from the Corporation Counsel was presented, read, received, ordered to be entered in full on the minutes and placed on file:

Jersey City, N. J.,
Dec. 10, 1895.

To the Board of Aldermen of Jersey City:

Gentlemen—I am in receipt of your resolution of the 12th of November last, asking my opinion whether your Board or any other Board of the City Government has the right to pass an ordinance similar to the ordinance existing in the City of Newark, which imposes a fee of ten dollars on each car of the Consolidated Traction Company. The Consolidated Traction Company is a company organized and existing under an act of the Legislature of 1893, and is the owner and successor of the rights, privileges and franchises of the Jersey City & Bergen Railroad Company, as lessee. The ordinance of 1859, authorizing that company to lay tracks on certain streets in Jersey City, contained the following clause:

Section Seventh—That after the construction of the said single tracks and turn-outs, it shall be lawful for the said company to run thereon cars to be drawn by one or more horse, or horses, upon obtaining from the Clerk of the Common Council a license for each car, and in consideration of the police protection and other municipal advantages, the said company shall pay annually to the said Clerk the sum of ten dollars for each car, such license fee to be paid in advance, and before such car shall be permitted to run.

All subsequent ordinances authorizing the Jersey City & Bergen Railroad Company to lay tracks through the streets of Jersey City contained practically this same clause.

This fee of ten dollars per car was part of the consideration to be paid by the company to the city for the privileges granted under such ordinances. The laying of the tracks and the completion of the work by the company was an acceptance of the ordinance and all its conditions and provisions. This is true of all the subsequent ordinances as well as the original one. The Consolidated Traction Company, as lessees, assumed all the original powers and liabilities of the Jersey City & Bergen Railroad Company, and under such assumption they ought to be required to pay a license fee of ten dollars per car.

Outside of an agreement between the city and the companies to pay such a license fee as part of the consideration for the privileges granted and the protection afforded, I doubt if the city has the power to impose or enforce such a license, especially with the object of raising revenue.

The power to enforce the payment of this fee, by resolution or otherwise, is vested in the Street and Water Board of this city. It was placed there by the act of 1891. Very respectfully,

JOHN A BLAIR,
Corporation Counsel.
